

Risk Management In the Real World

Featuring...

Lee R. Lambert, 2009 PMI Fellow

Brought to you by PMI Chicagoland and LCG

**8 HIGH QUALITY PDUs FOR ONLY \$399
(6 TECHNICAL 2 LEADERSHIP,)**

You will learn how to...

- Recognize the significance of proactively managing risk on their project
- Separate Risks by impact category to assure the most critical Risks are "managed"
- Prioritize Risks based on a combination of Frequency Probability and Potential Impact
- Understand the difference between Independent and Dependent Risk events
- Justify the establishment of Expected Monetary Value for Contingency Reserve
- Conduct a Cause and Effect analysis once a Risk event "begins" to take place
- Use Risk input to analyzing the impact on the Project Performance Measurement Baseline
- Clearly and effectively communicate the status and impact of Risk

What students have been saying:

"Real world, practical, intelligent information presented in a fun manner. Top notch!" - Greg Dartt, American Electric Power

"The advice Lee gave was excellent. I laughed the whole time and I really learned alot! I can't wait for the next workshop!"
Sandy England-U.S. Dept of Education"

"This was probably the best learning experience I have ever been involved with. Lee grabs your attention and keeps you engaged throughout the entire session." - Lary Bowen
